

Voices | Company Overview

Voices is the world's #1 voice marketplace with over 4 million voice actors.

Voices is the world's #1 voice marketplace with over 4 million members. Since 2005, the biggest and most beloved brands have trusted Voices to help them find professional voice talent to bring their projects to life.

Proprietary Technology

Voices introduced a new way of doing business which revolutionized an industry. That innovation is supported by a number of proprietary technologies, including:

A recommendation engine that algorithmically matches talent profiles to client job postings.

A payment service offering security to both talent and client.
